

MISCELLANEOUS FEES

PERMIT APPLICATION

EFFECTIVE 01-01-2026

The following fees apply to obtaining permits from the Victoria County Fire Marshal's Office. Acceptable payment methods are paper checks or money orders made payable to Victoria County, or a credit card. Payment must be submitted before starting the process for which the fee applies. Please note that all fees paid to the Victoria County Fire Marshal's Office are non-refundable. A submission is not considered complete until all required documentation, including payment, has been received. For commercial building permits, the total fee consists of three parts: the plan review fee, the building permit and inspection fee, and the final inspection and Certificate of Compliance fee.

It's important to note that submitting the permit application and plans does not mean you are approved or authorized to begin construction. Applicants must wait to receive the stamped, approved plans from the Fire Marshal's Office before starting any work. If construction begins before approval is received, a fee for working without a permit will be charged.
